

M8TM

Monitor Arm

The Best of Both Worlds

Featuring incredible weight capacity in a sleek, slim profile, the M8 Monitor Arm is the perfect fusion of style and strength.

Through its unique construction, the M8 accommodates the widest range of monitors available today—virtually any single- or dual-monitor configuration up to 40 pounds. And unlike other high-capacity monitor arms, whose bulky designs restrict their performance, the M8 offers effortless adjustment and flawless ergonomic function.

M8 for Single Monitors

The M8's high-performance design easily accommodates heavy monitors, but also provides the flexibility to support monitors weighing as little as eight pounds. Precision engineering makes it all possible, as the M8 features an internal counterbalance that easily adjusts to provide the right amount of support.

As a result, the M8 not only accommodates virtually any monitor available today, it is versatile enough to meet the ever-changing demands of tomorrow's workplace.

M8 for Dual Monitors

The M8's extreme weight capacity makes it ideal for supporting dual-monitor applications.

Using an optional crossbar support, the M8 accommodates two monitors—each weighing up to 20 pounds—arranged side-by-side. Monitors mounted to the crossbar adjust simultaneously for easy repositioning and excellent ergonomics. Plus, each monitor can be adjusted independently via a Fine-Tune Adjustor for perfect alignment and a smooth aesthetic.

Features

- Modular design features interchangeable links to accommodate any application
- Built-in security system provides effective theft-deterrent for public areas
- Humanscale's Quick Release ball joint facilitates fast and easy monitor installation and removal
- Built-in fine-tune adjustment ensures dual monitors line up perfectly
- 180° stop mechanism prevents wall damage from over-rotation
- Integrated cable management system hides cable clutter for improved organization and aesthetics

Specifications

- Accommodates virtually any single monitor from 8 – 40 lbs or dual monitors up to 20 lbs each
- Arm reach: 22"
- Height adjustment range: 11.5"
- Mount options: Clamp Mount, Bolt-Through Mount, Universal Slatwall Mount, Wall Stud Mount
- Finish options: Polished Aluminum with White accents, Silver with Gray accents
- 62% recycled and 99% recyclable content
- May contribute to a number of valuable LEED-CI, -NC and -EB credits
- 10-year, 24/7 warranty

M2™

Monitor Arm

The Next-Generation Monitor Arm

Offering all the benefits of a traditional dynamic monitor arm—with none of the shortcomings—the M2 redefines high-performance monitor arms.

Current-generation monitor arms utilize a bulky, failure-prone gas cylinder to support the weight of the monitor. The M2 instead uses an innovative mechanical spring to achieve exceptional performance and durability in a lightweight, ultra-thin design.

The Benefits of Mechanical Spring Technology

Design

The M2 is thinner, lighter and easier to maneuver than any current-generation monitor arm, and its sleek aesthetic complements the thin profiles of today's flat panel monitors.

Durability

With no gas cylinder and fewer parts than current-generation arms, less can go wrong with the M2 over time. As a result, it's backed by an industry-best 15-year 24/7 warranty.

Performance

Designed to support 95% of the monitors in use today and offering effortless adjustment of both height and depth, the M2 will accommodate virtually every application for single monitors.

A New Level of Sustainability

For all its advancements, the M2's most notable achievement is that it treads lightly where the environment is concerned.

- Fewer parts mean fewer manufacturing processes
- Lighter weight means less material to source, process, dispose of, and ship
- Slim profile enables less wasteful packaging
- Durable design means it won't need to be replaced for a very, very long time
- No gas cylinders, which are difficult to recycle
- 52% recycled content and 99% recyclable
- Contributes to valuable LEED-CI, -NC and -EB points

Specifications

- Supports 95% of monitors in use today (up to 20 pounds)
- Interchangeable mounting options attach to a variety of work surfaces
- Integrated cable management hides cables within the arm
- Removable 180° stop protects walls and panels
- Arm reach: 20"
- Height adjustment range: 10"
- Weight: 5 pounds
- Finish options: Polished Aluminum with White accents or Silver with Gray accents
- Made primarily of recycled aluminum
- 52% recycled and 99% recyclable content
- May contribute to a number of LEED-CI, -NC and -EB credits
- 15-year 24/7 warranty
